About the Settlers Landing Sharks - In 1978 a small group of Settlers Landing residents invested their own money with the belief that they could create a community pool and recreation area for the local residents. This vision resulted in the wonderful pool that has provided decades of family-friendly fun. The Settlers Landing Sharks swim team encapsulates the spirit and energy of this close knit community – working together to encourage and support each other. Come and see why we are “Chesterfield’s best kept secret”.
